

Insect Classification Practices of IPB Faculty of Veterinary Postgraduate Student

Gunung Walat, Sukabumi – Biology Course Practices and Insect Classification of Study Program of Parasitology and Health Entomology of Graduate School of Veterinary Medicine of IPB took place on 7-8 October 2011 in Gunung Walat University Forest (GWUF), Sukabumi.

This practice was attended by 6 graduate students and 3 lecturers. Lecturers who accompanied them were Dr. drh. Upik Kesumawa Hadi, MS; Dr. drh. Susi Soviana, MS and Prof. Dr. Singgih H Sigit, M.Sc.

"The aim of this practice is to see and study the insects that are actually in nature such as larvae, pupae, and adults; various orders; and insect groups in here," said Dr. drh. Upik Kesumawa Hadi, MS.
